

Certification of non-infectious material

Name: YF vaccine serum pre-bleed

Product number: SER71200

Description: SER71200 is a liquid preparation of serum obtained from a recipient of Yellow Fever vaccine (17D strain), prior to their immunisation. It is therefore suitable as a negative control to confirm the specificity of anti-YFV assays.

This preparation is derived from healthy human donors, with no evidence of infection or exposure to infectious agents. The material has been tested and found to be negative for HBsAg, anti-HIV antibodies/antigen and HCV antibodies.
