

Certificate of Analysis

Neisseria gonorrhoeae antigen

Description: Homogenised lysate of pure bacteria.

Organism: *Neisseria gonorrhoeae*

Product code: NG01

Batch number: K43

Protein concentration: 0.41mg/ml (by BCA assay)

Purity: Homogenised pure bacteria

Buffer: PBS + 0.09% Sodium Azide

Inactivation: 56 degrees for 3 hours, confirmed inactive by no visible colonies on permissive plates.

Special instructions: Vortex/sonicate before use to ensure a homogenous solution.

Short term storage: -80°C

Long term storage: -80°C
