## Peiou's flowers open in the inspection detection technology expo.

On the 13<sup>th</sup> to 15<sup>th</sup>, september, 2013 internation test detection technology and equipment exhibition held in Shangdong province Qingdao internation convention center. Equipment at home and abroad more than 200 enterprises take part in the exhibition, the national quality inspection system of science and technology, technology center, quality inspection center, key laboratory and the third party inspection agency, the national quality intergrity enterprises, representative to visit nagotiate.

Shanghai Peiou's analytical instruments Co., Ltd at the invitation of the organizing committee, honored to attend this event. In the three days of exhibition, Shanghai Peiou company carries the domestic leading technology with 4 patents of their own intellectual property rights of the automatic kjeldahl analyzer appatatus SKD-2000. It has obvious Technical advantages of containing binomial self-owned intellectual property patented technology of the automatic kjeldahl analyzer apparatus SKD-800. Won the "award" green instrument of quartz infraraed radiation digestion furnace series products such as instrument approach. In order to let the user more intuitive for the automatic kjeldahl analyzer apparatus have nothing intuitive understanding, peiou's use in the industry field samples show originality, uninterrupted N time detection of the same samples, let the data speak. Obtained the favorable comment from expert at the scene, audience sigh said: I din't think at home also can make such a high precision automatic kjeldahl determination apparatus.
