Digital pressure gauge
Model CPG500

Applications
- Calibration service companies and service industry
- Measurement and control laboratories
- Quality assurance
- Easy on-site calibration

Special features
- Measuring ranges from -1 ... +20 bar to 0 ... 1,000 bar
- Accuracy: 0.25 % (incl. calibration certificate)
- Robust case with protective rubber cap
- Simple operation using four buttons
- Complete service cases incl. pressure generation available

Description

General
The model CPG500 digital pressure gauge enables the measurement and display of pressure values in a single instrument. The accuracy of digital measurement technology and the simplicity of an analogue gauge are combined in this instrument.

Accuracy
The CPG500 offers an accuracy of 0.25 % of the full scale value in four pressure ranges. Readings can be displayed in one of five standard units.

Sampling rate
With a measuring rate of 100 measurements per second, the CPG500 features a very high measuring rate. With this, fast pressure peaks and drops in pressure can be detected. The bargraph display and drag pointer function integrated into the display, as well as retrievable MIN/MAX peak values, enable effective analysis of the measuring point.

Properties
In order to prolong the battery life, the CPG500 features an automatic switch-off function. With the ZERO function, the display value can be zeroed with the simple press of a button. An activatable filter function stabilises pressures which fluctuate strongly, and enables the pressure value to be read easily.

Complete test and service cases
For maintenance and service applications, various service case systems are available. Service cases with pneumatic or hydraulic pressure generation are available.

Certified accuracy
For each digital pressure gauge, the accuracy is certified by a factory calibration certificate which accompanies the instrument. On request, we are also pleased to provide a DKD/DAkkS calibration certificate for the instrument from our own DKD/DAkkS laboratory.

#### Base instrument

**Indicator**
- Display: 4 ½ digit, bargraph with drag pointer function, illuminated
- Dimensions: 50 x 34 mm
- Digit height: 15 mm
- Pressure units: bar, psi, MPa, kPa, kg/cm²

**Function**
- Measuring rate: 10 ms
- Memory: MIN/MAX
- Autopower: Selectable
- Zero function: Zero point adjustment
- Reset: Delete MIN/MAX value

**Material**
- Wetted parts: Stainless steel with sealing NBR
- Case: Die-cast zinc with TPE protective rubber cap

**Voltage supply**
- Power supply: 2 x 1.5 V AA batteries
- Battery life: approx. 1,500 hrs.
- Battery status indication: Icon in display

**Permissible ambient conditions**
- Operating temperature: -10 ... +50 °C
- Medium temperature: -20 ... +80 °C
- Storage temperature: -20 ... +60 °C
- Relative humidity: < 85 % r.H. (non-condensing)

**Case**
- Rotatability: > 270 °
- Dimensions: 79 x 79 x 33 mm
- Ingress protection: IP 67
- Weight: approx. 400 g

1) Only for use with safe media per directive 67/548/EEC (article 2, paragraph 2).

#### Approvals and certificates

**CE conformity**
- EMC directive: 2004/108/EC, EN 61000-6-3 emissions for commercial and light industrial environments and EN 61000-6-2 interference immunity for industrial environments

**Certificate**
- Calibration: 3.1 calibration certificate per DIN EN 10204
  - optional: DKD/DAkkS calibration certificate

Complete test and service cases

Calibration case with model CPG500 digital pressure gauge and model CPP40 hand test pump, for pressures -0.95 ... +40 bar, consisting of:

- Plastic service case with foam insert
- Model CPG500 digital pressure gauge
- Model CPP40 pneumatic hand test pump; -0.95 ... +40 bar

Available measuring ranges: see specifications on page 3.

Recommended pressure generation

Model CPP40 pneumatic hand test pump
Pressure range: -0.95 ... +40 bar

Model CPP700-H or model CPP1000-H hydraulic hand test pumps
Pressure range: 0 ... 700 bar or 0 ... 1,000 bar

For further specifications, see data sheet CT 91.07.
Scope of delivery

- Digital pressure gauge model CPG500
- Operating instructions
- 3.1 calibration certificate per DIN EN 10204
- 2 x AA batteries
- Protective rubber cap for case

Option

- DKD/DAkkS certified accuracy

Accessories

Connection adapters
- Various pressure adapters

Pressure generation
- Pneumatic test pumps
- Hydraulic test pumps

Test cases
- Various calibration cases incl. pressure generation
