

Technical data sheet Junction box T 100, plug-in seal

The junction boxes are made of a thermoplastic polypropylene polymer with plug-in seals made of ethylene vinyl acetate (EVA). This allows installation of cables either directly through the 10 x M25 seals, or the seals can be cut with a knife at the pre-marked points, in order to create an insertion opening for cables or pipes. Alternatively, cable glands can be pushed through the openings instead of the seals and locked with a locknut from the inside. The junction boxes can be mounted on mounting plates in the openings on the floor using steel screws 3.5 x 9.5. Clear internal dimensions: 136 x 102 x 57 mm. Cover with labelling panel and lead-sealed.

Standard version: flame-resistant, testing temperature 650 °C.

F version: highly flame-resistant, testing temperature 960 °C.

Type	Version	Entries	Colour	Box quantity	Pack. pcs	Weight kg/100 pcs.	Art.-No.
T 100	Standard	10 x M25	Light grey; RAL 7035	40	1	16.270	2007077
T 100 RW		10 x M25	Pure white; RAL 9010	40	1	16.270	2007533
