- Ponds
- Fountains

← Main characteristics

- Multi emission medium pressure Lamp

The Aquaray® SMP-WF range offers compact and high efficiency system for medium and large ponds, lakes or water features with a range of flow rates from 23 to 1000 m³/h with exceptional reliability and ease of operation.

MAIN FEATURES

- Polychromatic medium pressure lamps for highest germicidal efficiency
- Few high power lamps for lower maintenance cost
- Optional automatic “Smartdrive” wiper system
- Easy to install in new or existing water plants
- User friendly operator interface microprocessor controlled
- Data logging one year

UV TECHNOLOGY: SMP-WF

The Aquaray SMP-WF® units provides a reliable protection against biological contaminants commonly found in pond or water features. The germicidal effect of the UV light inactivates most micro-organisms such as bacteria, viruses and parasites. UV is known to be particularly efficient to inactivate *Cryptosporidium Parvum* and *Giardia Lamblia*.

The medium pressure lamps have an action on nucleic acid and proteins for micro-organisms inactivation. The UV dose (UV Intensity x contact time) defines the treatment efficiency which is provided by the unit. The effective dose applied depends on the UV transmittance of water to be treated as well as the proper hydraulic design of the unit.

HOW IT WORKS

The medium pressure lamps are powered by electronic ballasts. The lamps are inserted in pure quartz thimbles isolating them from the water. The lamps can be easily changed when indicated by the micro-processor control unit.

A UV sensor is available in option to monitor UV intensity. The periodic maintenance of the system has been made very easy by allowing the removal of the full lamp assembly.

► Standards

- **Flanges:** BS, ANSI
- **Reactor Pressure Rating:** 10 barg
- **Electrical:** CE, EN
- **Main Power Supply:** 400V/3ph/50-60Hz
- **Panel Rating:** IP54
- **Conformity:** CE

► Remote controls and signals

- **Digital Inputs:** lamp start-stop
- **Digital Outputs:** system healthy, pre-alarm, alarm

► Materials

- **Reactor Material:** 316L stainless steel/quartz thimble/
silicon O-ring
- **Panel Material:** polyester coated mild steel

► Options

- **Automatic wiper**
- **Stainless steel panel**
- **UV sensor**
