

FX-100 SERIES
Sensing Characteristics
Data Sheet

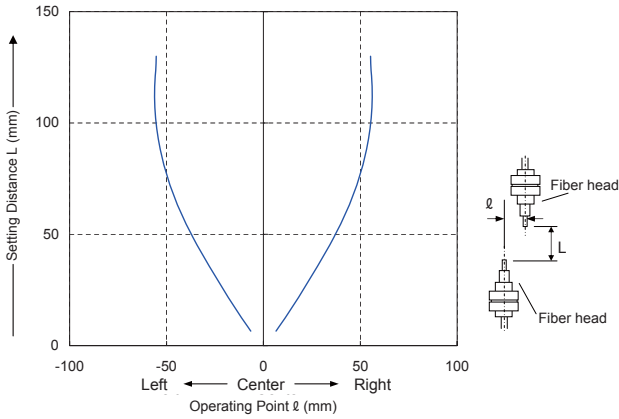

Thru-beam type Parallel deviation

Sensing characteristics diagram is listed in alphabetical order of model No.

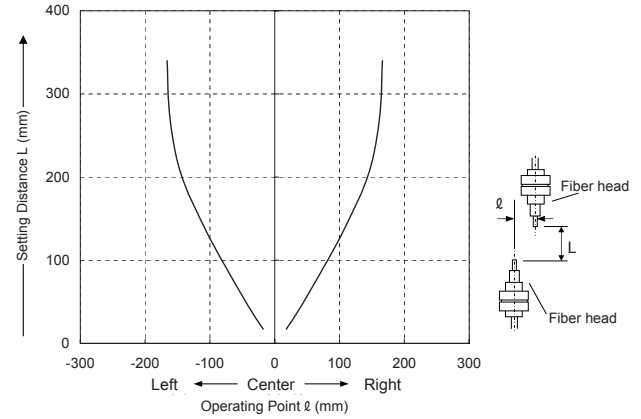

FT-31S

Thru-beam type

Common for horizontal and vertical direction (FX-101)

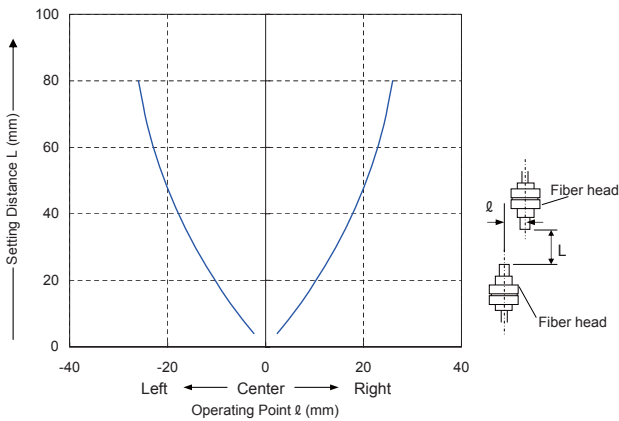

Common for horizontal and vertical direction (FX-102)

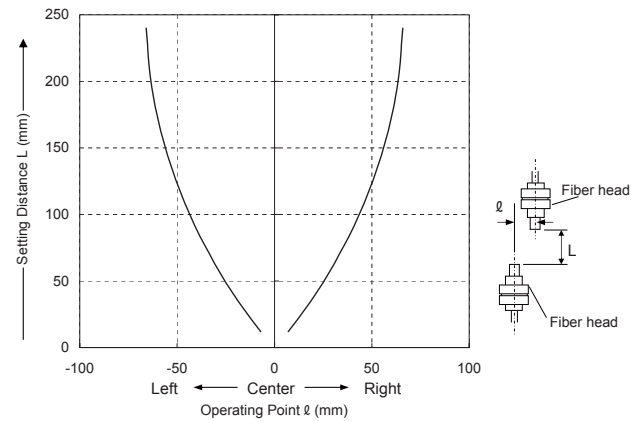

FT-31W

Thru-beam type

Common for horizontal and vertical direction (FX-101)

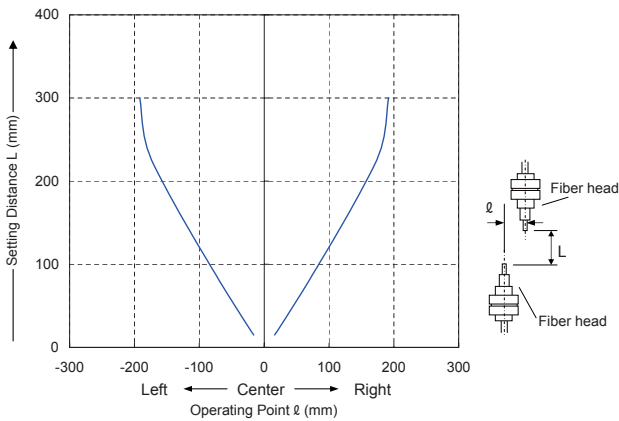

Common for horizontal and vertical direction (FX-102)

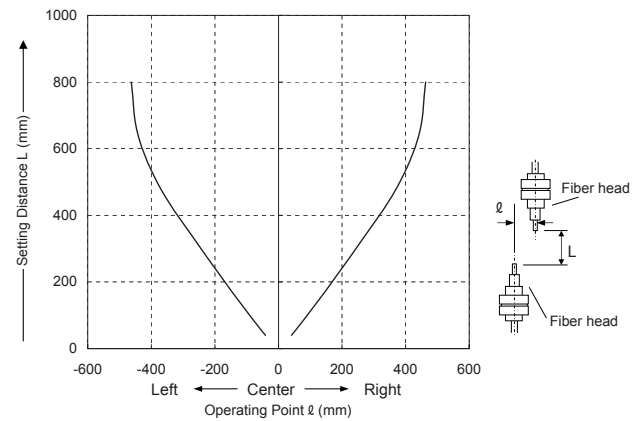

FT-42S

Thru-beam type

Common for horizontal and vertical direction (FX-101)

Common for horizontal and vertical direction (FX-102)

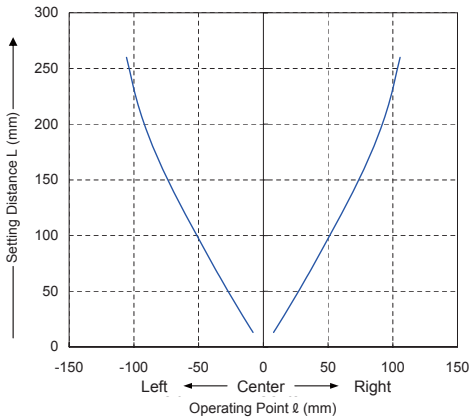

Thru-beam type Parallel deviation

Sensing characteristics diagram is listed in alphabetical order of model No.

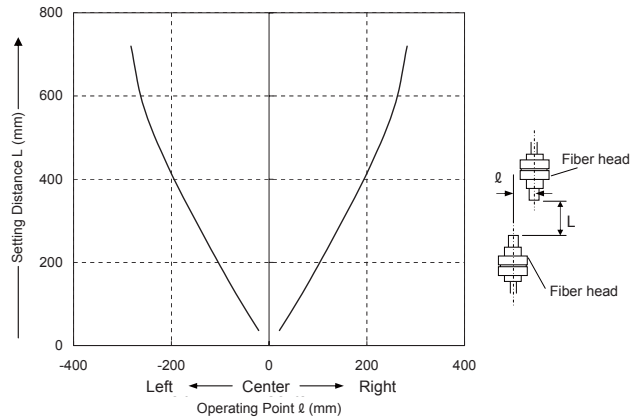

FT-42W

Thru-beam type

Common for horizontal and vertical direction (FX-101)

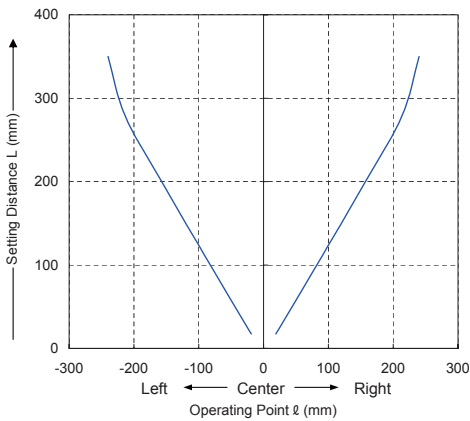

Common for horizontal and vertical direction (FX-102)

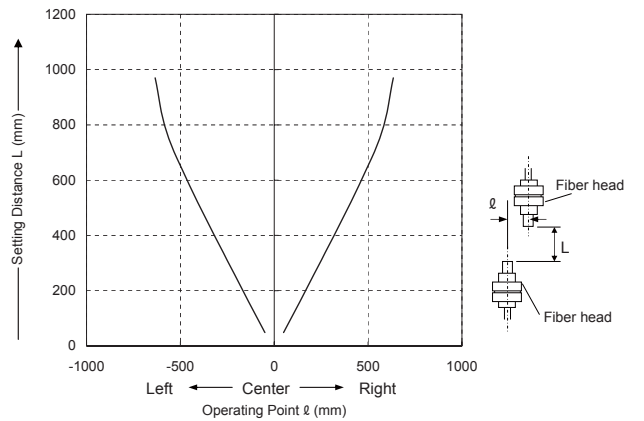

FT-43

Thru-beam type

Common for horizontal and vertical direction (FX-101)

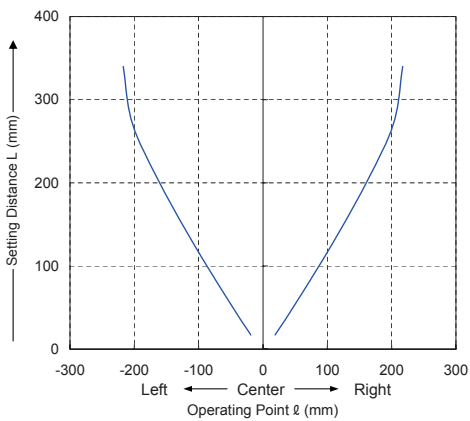

Common for horizontal and vertical direction (FX-102)

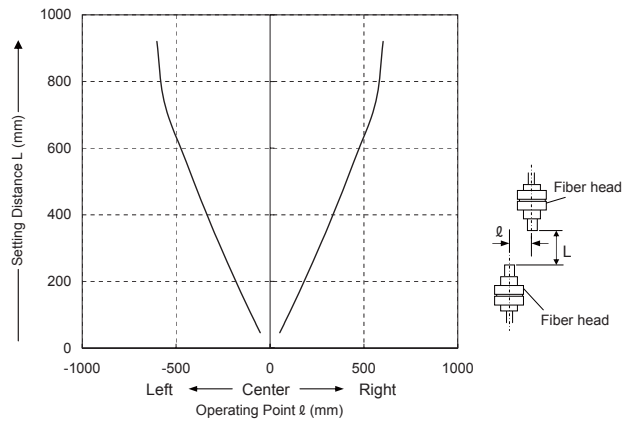

FT-45X

Thru-beam type

Common for horizontal and vertical direction (FX-101)

Common for horizontal and vertical direction (FX-102)

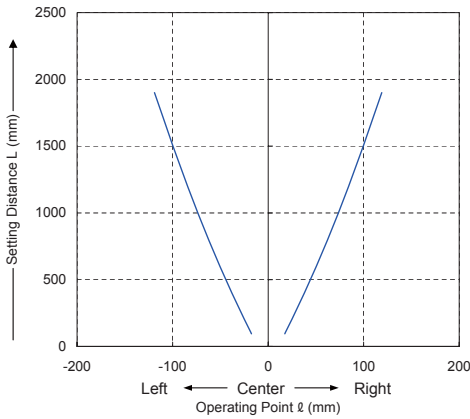

Thru-beam type Parallel deviation

Sensing characteristics diagram is listed in alphabetical order of model No.

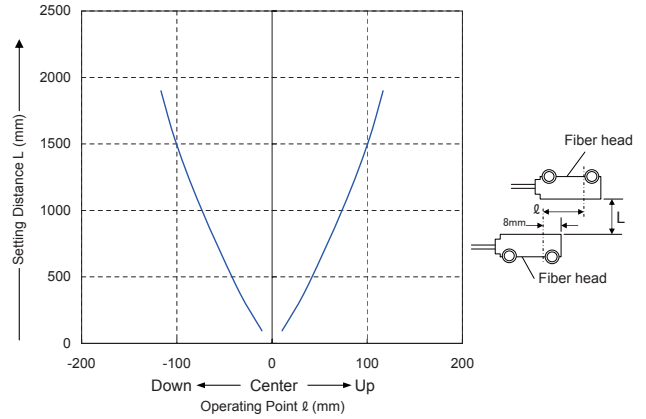

FT-A11

Thru-beam type

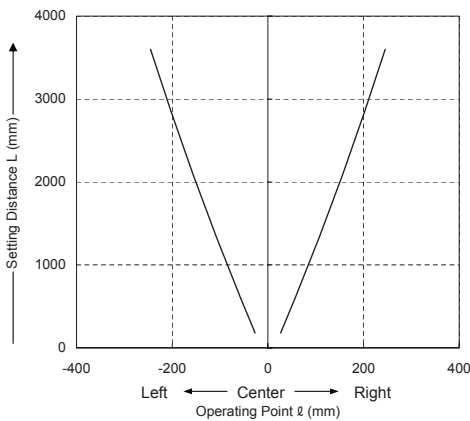

Horizontal direction (FX-101)

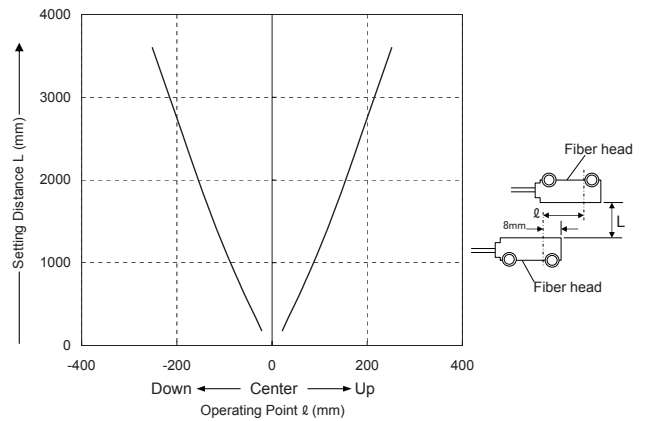

Vertical direction (FX-101)

Horizontal direction (FX-102)

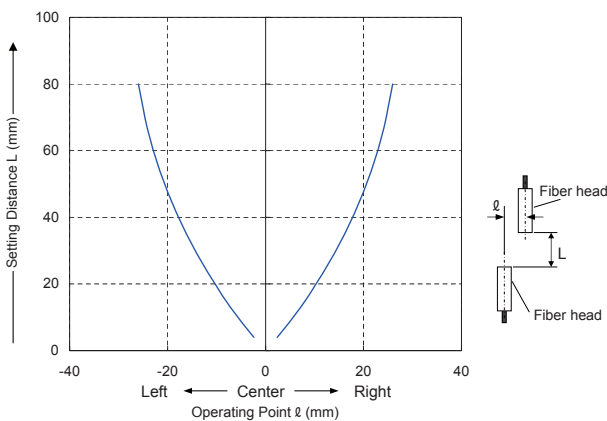

Vertical direction (FX-102)

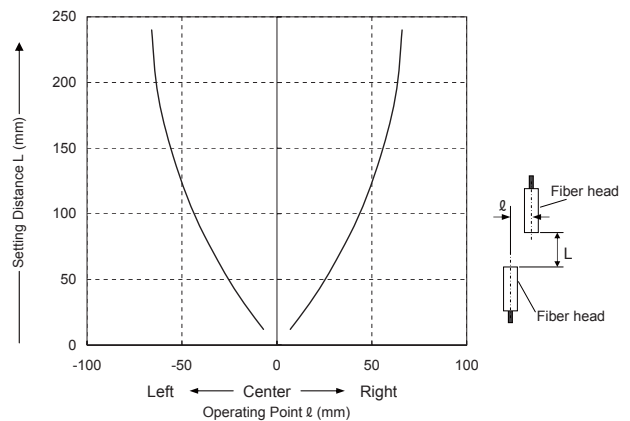

FT-S21W

Thru-beam type

Common for horizontal and vertical direction (FX-101)

Common for horizontal and vertical direction (FX-102)

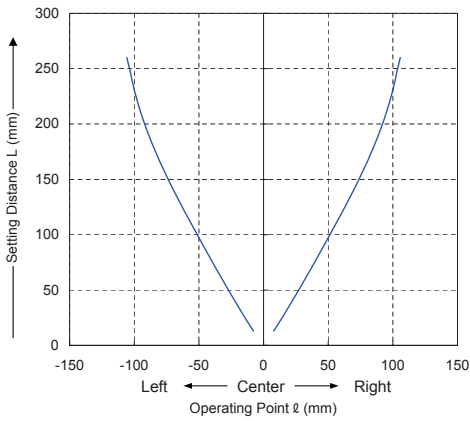

Thru-beam type Parallel deviation

Sensing characteristics diagram is listed in alphabetical order of model No.

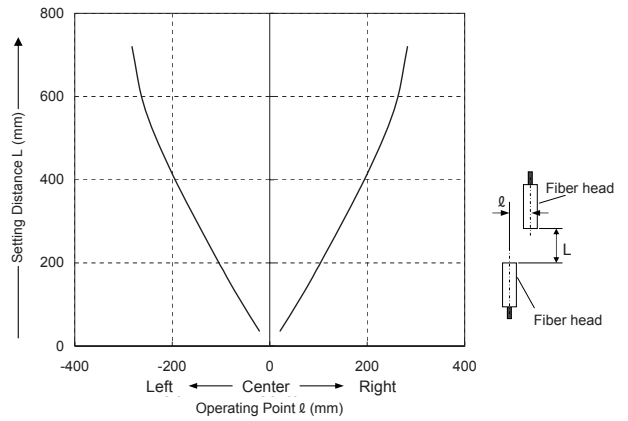

FT-S31W

Thru-beam type

Common for horizontal and vertical direction (FX-101)

Common for horizontal and vertical direction (FX-102)

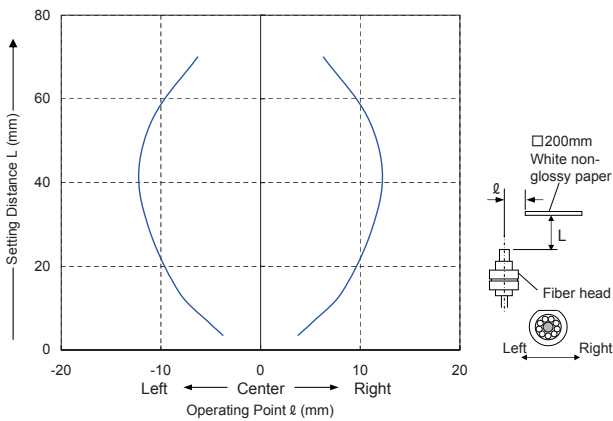

Reflective type Sensing field

Sensing characteristics diagram is listed in alphabetical order of model No.

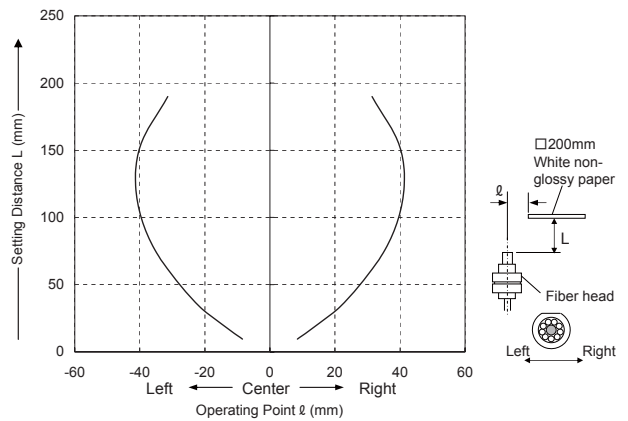

FD-32G

Reflective type

Common for horizontal and vertical direction (FX-101)

Common for horizontal and vertical direction (FX-102)

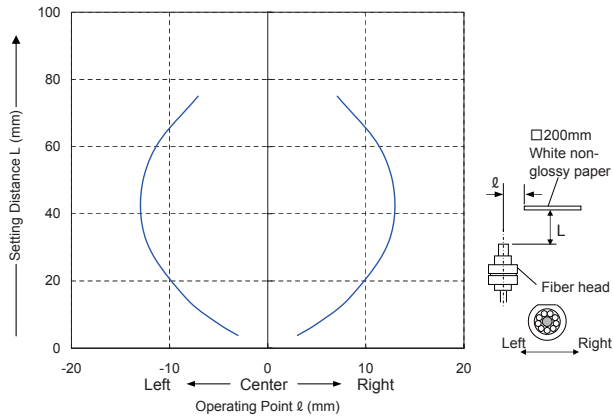

Reflective type Sensing field

Sensing characteristics diagram is listed in alphabetical order of model No.

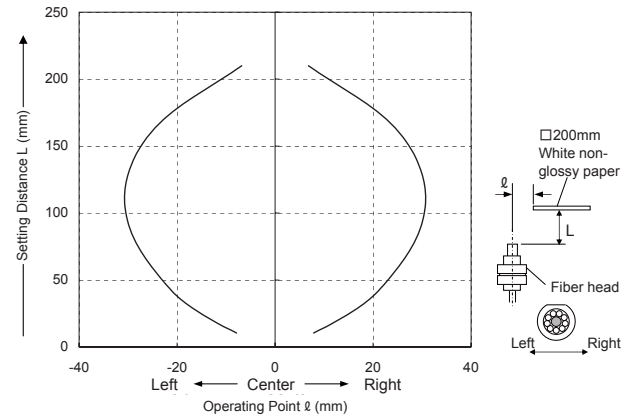

FD-32GX

Reflective type

Common for horizontal and vertical direction (FX-101)

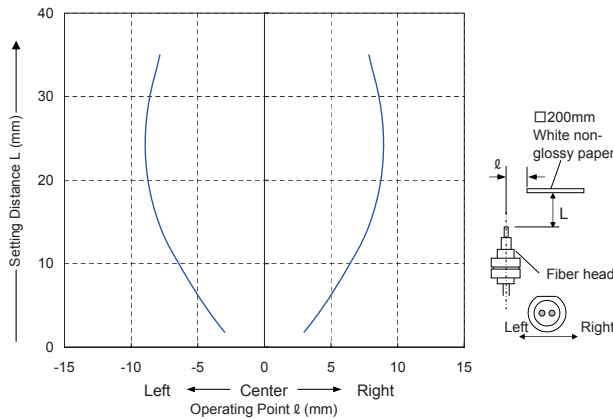

Common for horizontal and vertical direction (FX-102)

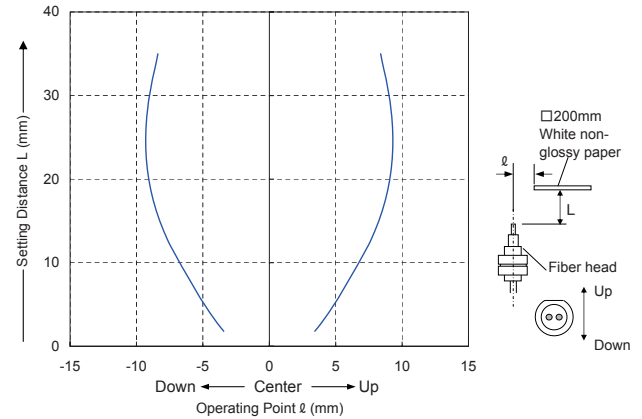

FD-41S

Reflective type

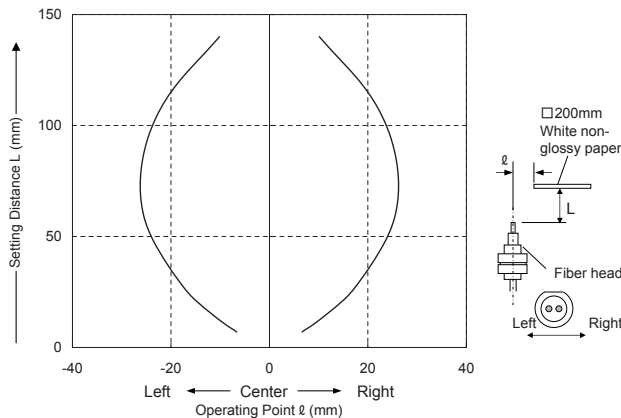

Horizontal direction (FX-101)

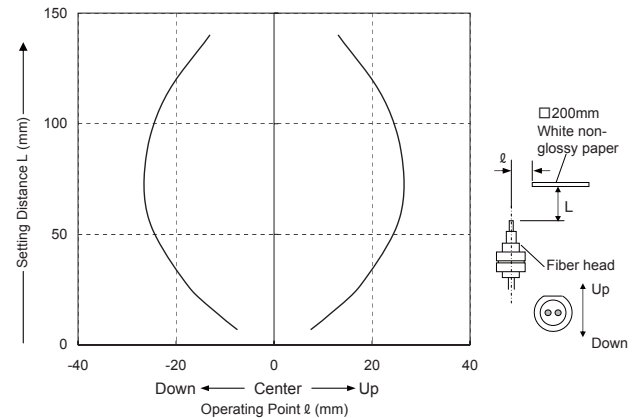

Vertical direction (FX-101)

Horizontal direction (FX-102)

Vertical direction (FX-102)

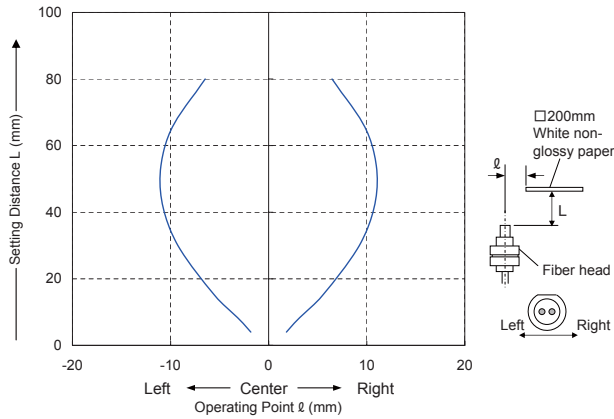

Reflective type Sensing field

Sensing characteristics diagram is listed in alphabetical order of model No.

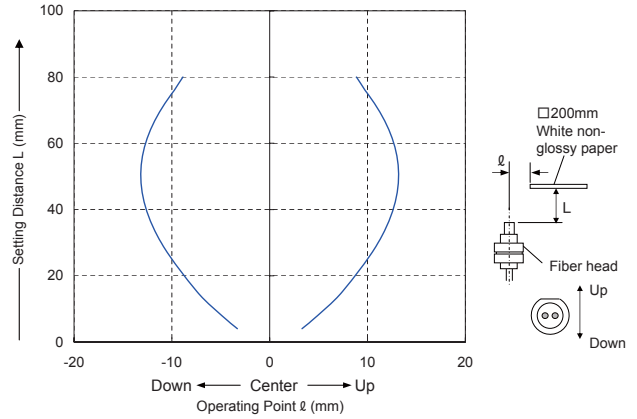

FD-41W

Reflective type

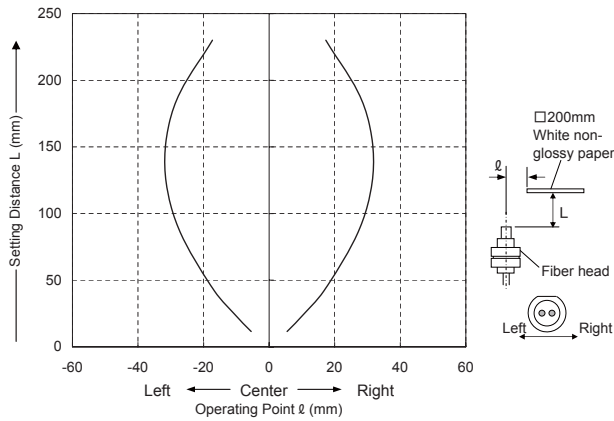

Horizontal direction (FX-101)

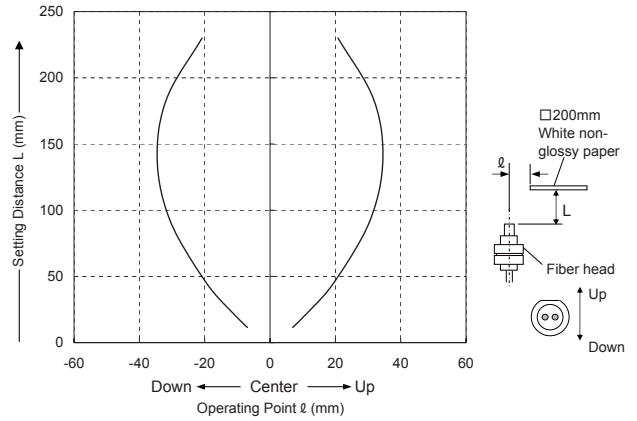

Vertical direction (FX-101)

Horizontal direction (FX-102)

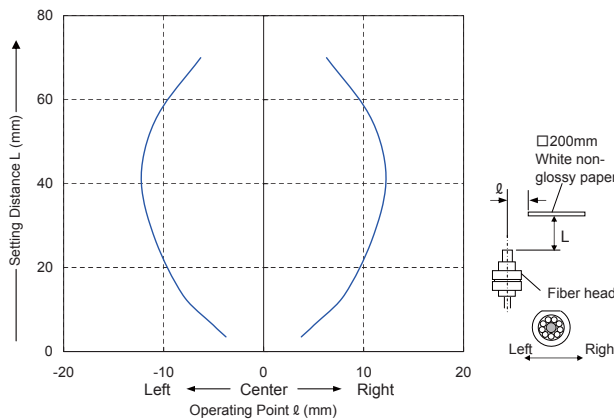

Vertical direction (FX-102)

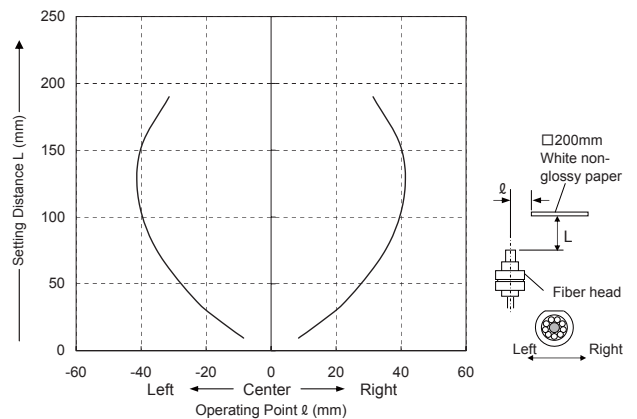

FD-42G

Reflective type

Common for horizontal and vertical direction (FX-101)

Common for horizontal and vertical direction (FX-102)

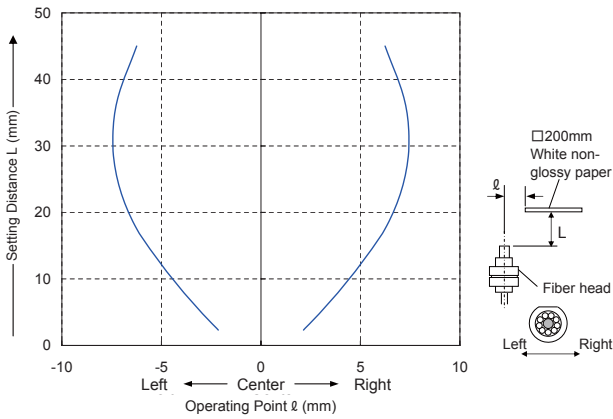

Reflective type Sensing field

Sensing characteristics diagram is listed in alphabetical order of model No.

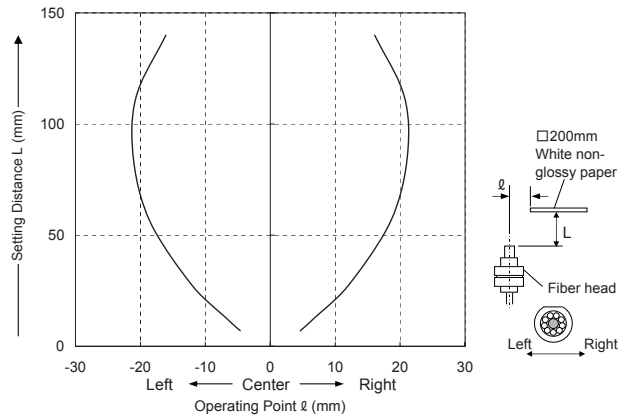

FD-42GW

Reflective type

Common for horizontal and vertical direction (FX-101)

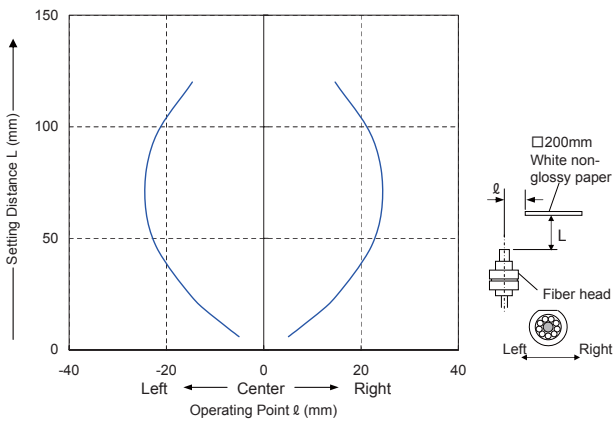

Common for horizontal and vertical direction (FX-102)

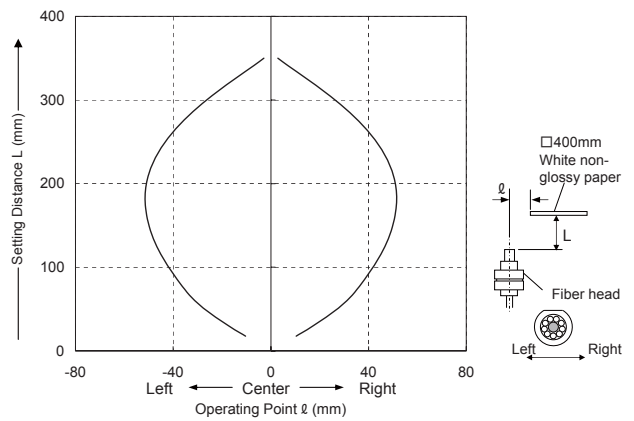

FD-61G

Reflective type

Common for horizontal and vertical direction (FX-101)

Common for horizontal and vertical direction (FX-102)

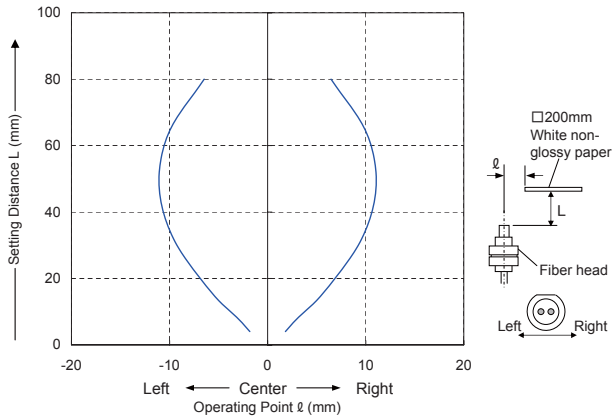

Reflective type Sensing field

Sensing characteristics diagram is listed in alphabetical order of model No.

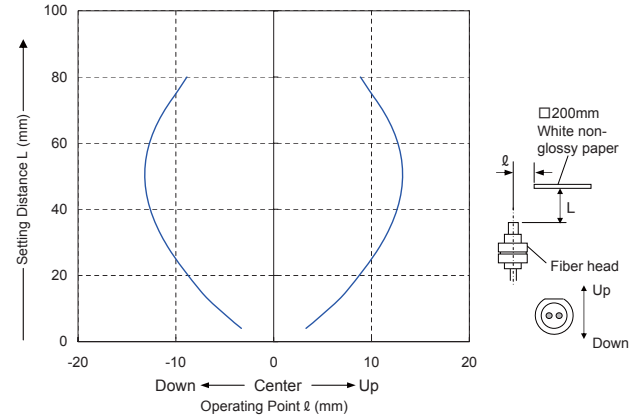

FD-61W

Reflective type

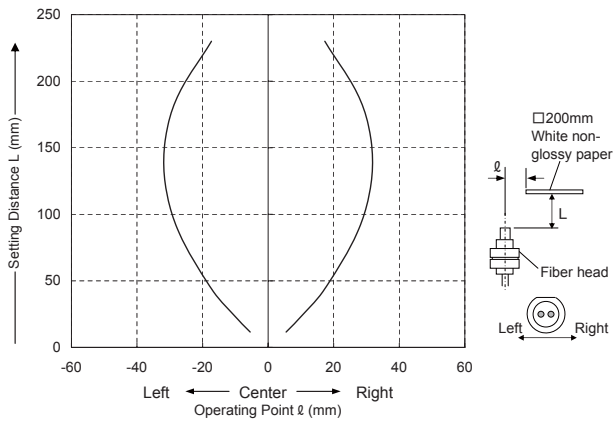

Horizontal direction (FX-101)

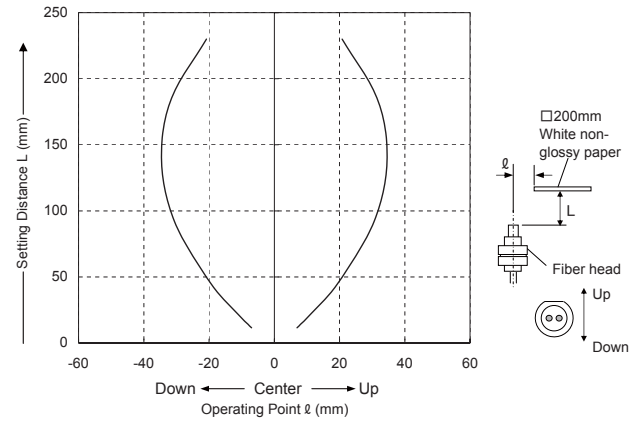

Vertical direction (FX-101)

Horizontal direction (FX-102)

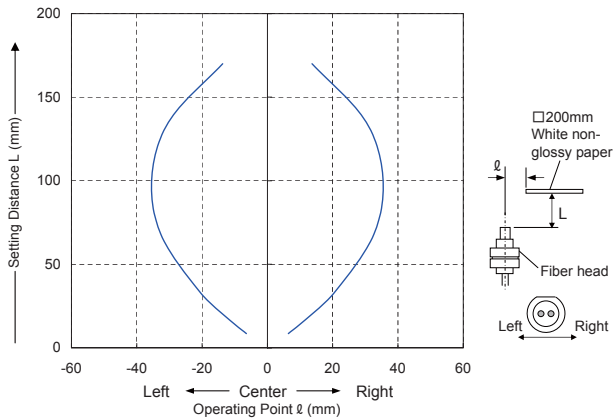

Vertical direction (FX-102)

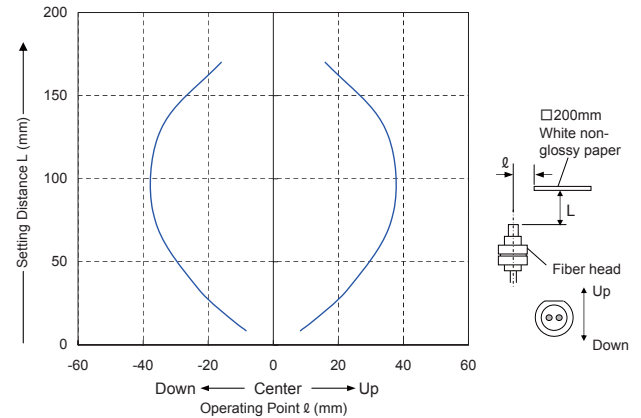

FD-62

Reflective type

Horizontal direction (FX-101)

Vertical direction (FX-101)

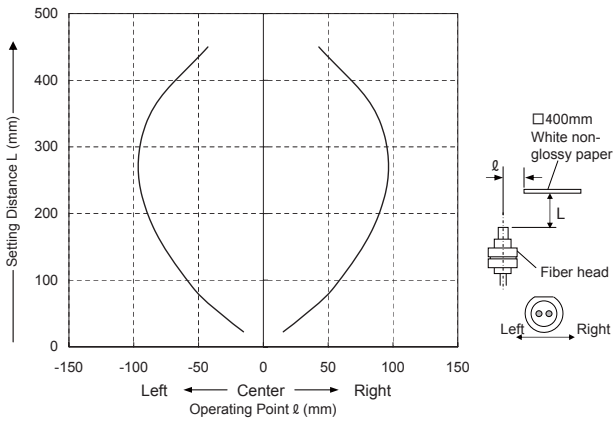

Reflective type Sensing field

Sensing characteristics diagram is listed in alphabetical order of model No.

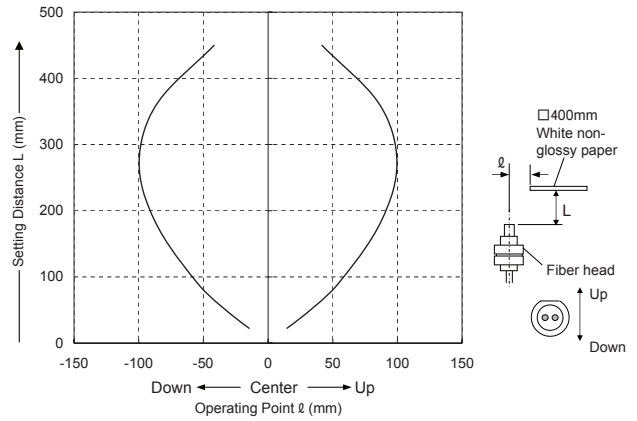

FD-62

Reflective type

Horizontal direction (FX-102)

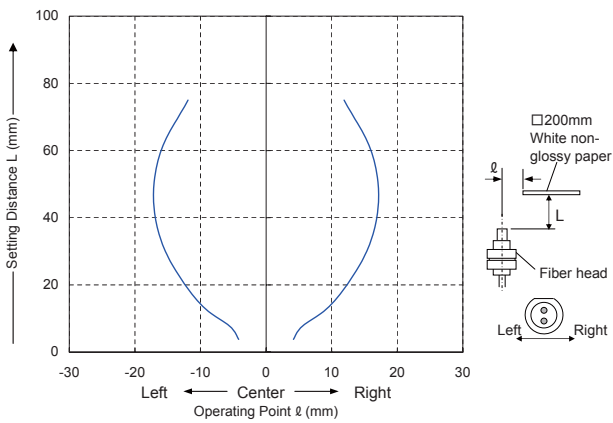

Vertical direction (FX-102)

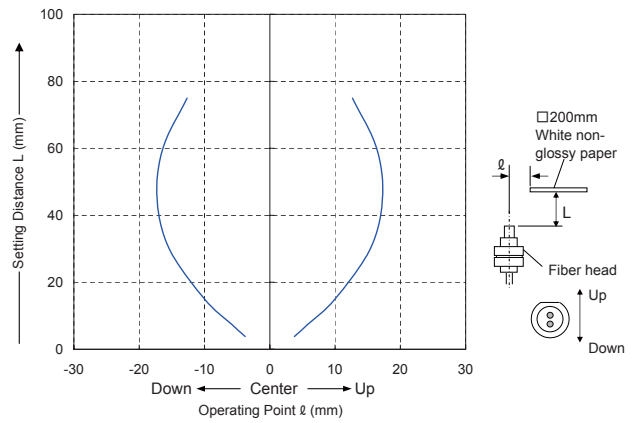

FD-64X

Reflective type

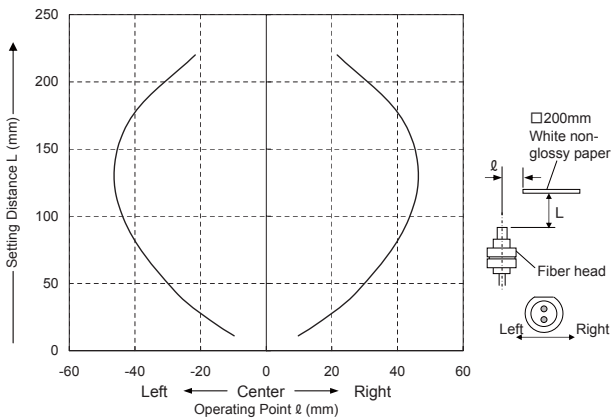

Horizontal direction (FX-101)

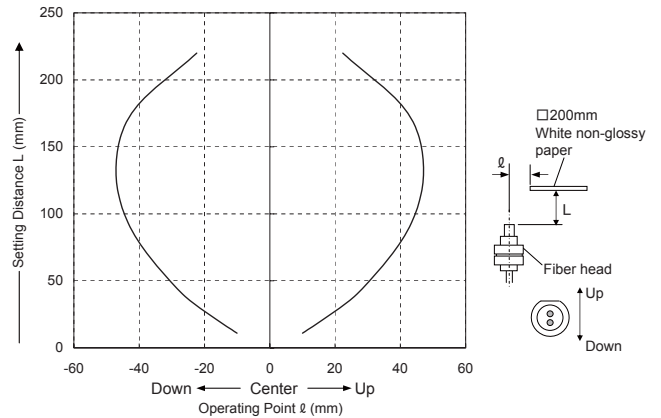

Vertical direction (FX-101)

Horizontal direction (FX-102)

Vertical direction (FX-102)

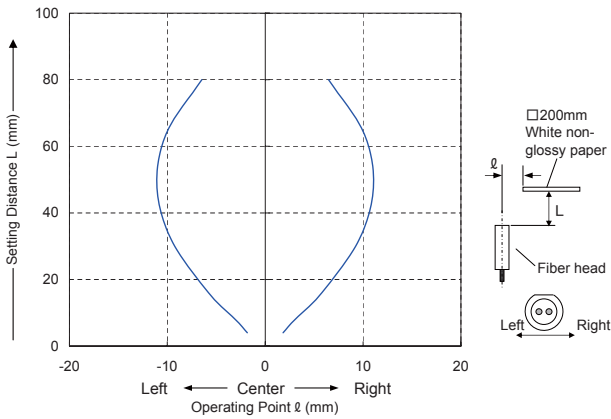

Reflective type Sensing field

Sensing characteristics diagram is listed in alphabetical order of model No.

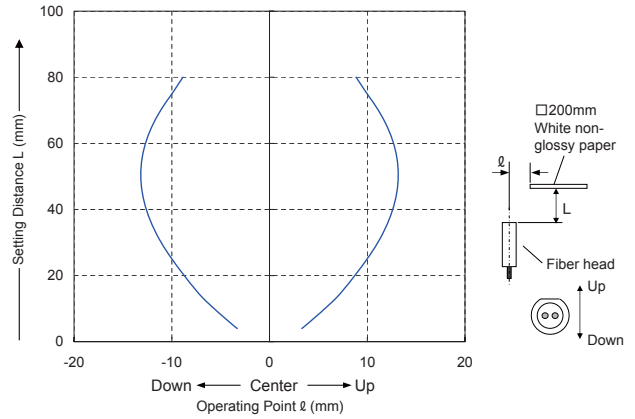

FD-S32W

Reflective type

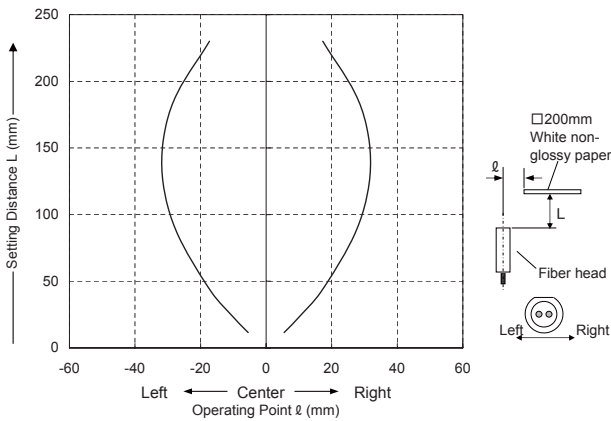

Horizontal direction (FX-101)

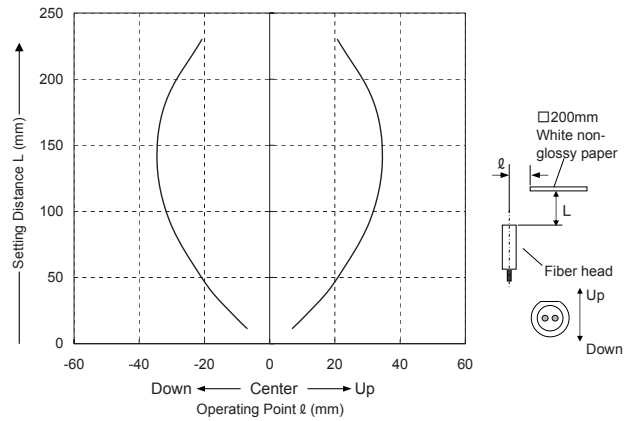

Vertical direction (FX-101)

Horizontal direction (FX-102)

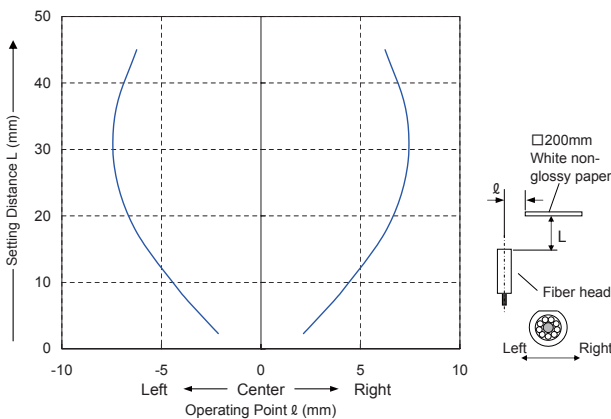

Vertical direction (FX-102)

FD-S33GW

Reflective type

Common for horizontal and vertical direction (FX-101)

Common for horizontal and vertical direction (FX-102)
